

# KINGSLEY CHIBUIKEM CHIFE

## Frontend Developer

Email: [chibuikemkchife@gmail.com](mailto:chibuikemkchife@gmail.com) | Phone: +234 806 822 6614 | LinkedIn: [linkedin.com/in/kingsleychibuikem](https://www.linkedin.com/in/kingsleychibuikem)

### PROFESSIONAL SUMMARY

---

Frontend-focused Web Developer with experience building scalable, responsive web applications using React, Next.js, and TypeScript. Proven ability to lead frontend teams, coordinate cross-functional delivery, and ship production-ready UI/UX under tight timelines, demonstrated as Frontend Team Lead on an LMS platform where consistent communication and technical ownership drove the project's success. Strong background in UI systems, e-commerce functionality, and API integration, with a track record of evaluating, debugging, and improving application performance and user experience.

### TECHNICAL SKILLS

---

**Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Headless UI

**Backend:** Node.js, Express, REST API integration

**Tools & Platforms:** Git, GitHub, Netlify, Vercel, VS Code, Figma

**Leadership & Collaboration:** Team leadership, code review, project coordination, cross-team communication, UI/UX delivery

### EXPERIENCE

---

#### Frontend Team Lead — Trueminds Innovations Ltd.

*February 2025 - May 2025*

- Led the frontend team on an LMS platform from architecture setup through delivery, owning technical direction for the project
- Set up the frontend architecture and guided the team in building a clean, functional, and scalable product
- Reviewed team contributions and coordinated a sub-team effectively, filling in gaps both within the sub-team and across the wider project
- Maintained constant communication, providing updates every 5-6 hours, which kept the team aligned and unblocked
- Took on UI/UX delivery as the most active contributor on the front-end, effectively serving as acting assistant project manager
- Received a performance review score of 100/100, with full marks in Technical Skill, Teamwork, and Workplace Attitude, and was commended by the team lead as a major contributor to the project's success

#### Web Developer — Freelance / Personal Projects

- Designed and developed full web applications from concept to deployment
- Translated UI/UX designs into scalable, maintainable frontend systems
- Built reusable components to reduce redundancy and improve efficiency
- Tested and debugged applications to ensure consistent performance across devices

## PROJECTS

---

### LMS Platform (Trueminds Innovations Ltd.)

Link: [team-delta-lms.vercel.app](https://team-delta-lms.vercel.app)

- Built and led the frontend architecture for a full Learning Management System platform
- Coordinated UI/UX delivery across the front-end team, ensuring a consistent, functional product

### RawExpress — Shipping & Logistics Web Application

Link: [rawexpress.netlify.app](https://rawexpress.netlify.app)

- Built a logistics platform with shipment tracking and quote request workflows
- Developed reusable UI components, improving development speed and consistency
- Designed responsive layouts across mobile and desktop devices
- Improved user experience by structuring clear tracking flows and interface feedback

### RawCrypto — Crypto & Finance Web Platform

Link: [raw-crypto.netlify.app](https://raw-crypto.netlify.app)

- Developed a responsive financial dashboard with structured data presentation
- Built modular components to handle dynamic data rendering
- Focused on performance, accessibility, and clean UI architecture

### SkillBridge — Smart Job Portal for Graduates with Skill Gap Analysis

Link: <https://raw-smart-job-portal.vercel.app/>

- Built a MERN stack recruitment platform connecting graduates with employers
- Designed a skill gap analysis module comparing graduate skills against job requirements
- Built a recommendation engine that flags missing skills and suggests improvements
- Implemented profile, job posting, search, and application features with role-based access

## EDUCATION

---

### Nnamdi Azikiwe University

2026

2021 -

B.Sc. Computer Science

### Comprehensive Secondary School, Nawfia

2015

2009 -

West African Senior School Certificate Examination (WASSCE)

## **ADDITIONAL INFORMATION**

---

- Strong background in graphic design and photography, improving visual quality and UI consistency
- Detail-focused with emphasis on usability and clean design systems
- Open to frontend and junior full-stack roles, including AI-related evaluation and data tasks
